

To Parents / Guardian,

About submission of Certificate of Treatment for Influenza.

Reiwa Year 2 September 7 Day

Isesaki City Board of Education

In Gunma Prefecture student who were suspended due to influenza and will go again to the school, you will receive a doctor's proof of treatment. During the influenza epidemic period from Reiwa 2 (2020) to Reiwa 3 (2021), according to instructions from the Gunma Medical Association and Gunma Prefectural Board of Education to prevent the spreading of corona virus, parents should fill out the documents to be submitted to the school "Medical treatment report of influenza" will be change. If you are diagnosed with influenza, treat yourself well, after recovering please go to school. Sufficient medical treatment for children. In order to reduce the number of influenza infected in the hospital visits by, we need your understanding and cooperation as follows.

If you are infected of "Influenza"

- (1) Confirm the expected date of attending school to your doctor at the time of consultation.
(Ex:) How many days can my child go to school after the fever goes down?
- (2) Immediately report to the school
→When going to the school, as a general rule needed to submit "**Influenza Treatment Report**".
(However, when attending school earlier than the standard influenza suspension period※in this case need to submit case 1 "Treatment cert.")

Case 1 "Treatment cert."

This is the case currently use.

For unavoidable reasons from the standard influenza period, if you want to go to school early, ask your doctor to fill out the form and submit it.

→ The number of hospital visits at least 2 times.

【As a general rule please submit here.】

※ "Influenza Medical Treatment Report"

If you're diagnosed with influenza, confirmation of the hospital and follow up the family monitoring. You will write in and submit it.

→By creating a report cert, base to the following procedure written below that was proven infected by influenza you can complete the check up in the hospital 1 time.

<Hospital Confirmation · Follow up family monitoring>

* Please refer to the sample on how to fill out the "Treatment Report".

- ① Check the date 「the onset day」 with your doctor at the hospital.
→Write in "2 Diagnosis day"
→Write the onset date in the "Criteria for suspension period"
- ② Regularly checking the body temperature at home and check "the date of the fever disappeared".
→Write the date of the fever disappeared in the "Criteria for suspension period".
